**REPORT**

**Date: 04/10/2023**

Remedial classes are specialized educational sessions designed by the Department of Commerce to provide additional support and instruction to students who are struggling with specific subjects. These classes aim to address learning gaps, reinforce foundational concepts, and help students catch up with their peers. Remedial classes play a crucial role in enhancing educational equity by ensuring that all students have the opportunity to succeed academically. Such category of students is identified based on their performance in the unit test examination of the Semesters I, III & IV. The primary purpose of remedial classes is to offer targeted assistance to students who may be experiencing difficulties in certain subjects. These classes identify areas where students are facing challenges and provide them with personalized instruction to help them overcome these challenges. Remedial classes are not only about addressing academic shortcomings but also about building students confidence and motivation.

Further some students come forward voluntarily for extra inputs in any of the subjects. It is also observed that few students are facing difficult in some subjects. The details of the remedial Classes like number of students, their identification, the subject and the faculty taking the classes are enclosed. It is observed that such classes have a positive impact on the performance of the students. It is also observed that the confidence of the students is boosted up at the end of the sessions. This is reflected in the result analysis of the final exams.

Remedial classes are specialized educational sessions designed by the Department of Commerce to provide additional support and instruction to students who are struggling with specific subjects. These classes aim to address learning gaps, reinforce foundational concepts, and help students catch up with their peers. Remedial classes play a crucial role in enhancing educational equity by ensuring that all students have the opportunity to succeed academically. Such category of students is identified based on their performance in the unit test examination of the Semesters II, IV & VI. The primary purpose of remedial classes is to offer targeted assistance to students who may be experiencing difficulties in certain subjects. These classes identify areas where students are facing challenges and provide them with personalized instruction to help them overcome these challenges. Remedial classes are not only about addressing academic shortcomings but also about building students confidence and motivation.

Further some students come forward voluntarily for extra inputs in any of the subjects. It is also observed that few students are facing difficult in some subjects. The details of the remedial Classes like number of students, their identification, the subject and the faculty taking the classes are enclosed. It is observed that such classes have a positive impact on the performance of the students. It is also observed that the confidence of the students is boosted up at the end of the sessions. This is reflected in the result analysis of the final exams.

### Report

Remedial classes, organized by the Department of Commerce, provide crucial additional support to students struggling with specific subjects, aiming to bridge learning gaps and reinforce foundational concepts. These sessions play a vital role in promoting educational equity, ensuring all students have the chance to thrive academically. Students identified based on their performance in unit tests of Semesters I, III & IV receive targeted assistance, tailored to address their challenges and bolster their confidence and motivation. Additionally, some students voluntarily seek extra help in various subjects, and these classes have been observed to positively impact students' performance and boost their confidence, as evidenced by final exam results.

#### Purpose:

The primary purpose of remedial classes is to offer targeted assistance to students struggling with certain subjects. Through personalized instruction, these classes identify areas of challenge and provide support to help students overcome academic difficulties. Additionally, remedial classes aim to promote educational equity by ensuring all students have equal opportunities to succeed academically.

#### Implementation:

Students eligible for remedial classes are identified based on their performance in unit tests conducted during Semesters I, III & IV. The details of these classes, including the number of students, their identification, the subjects covered, and the faculty conducting the sessions, are documented and enclosed for reference.

Observations:

1. Positive Impact on Performance: Remedial classes have been observed to have a positive impact on the academic performance of participating students. Analysis of final exam results indicates improvements in the subject areas covered by the remedial classes.

2. Boost in Confidence: Participating students have reported increased confidence and motivation as a result of attending remedial classes. The personalized instruction and support provided during these sessions have contributed to students' sense of academic empowerment.

3. Voluntary Participation: In addition to students identified for remedial support, some students voluntarily seek extra assistance in specific subjects. This demonstrates a proactive approach to academic improvement and reflects the effectiveness of the remedial class program in catering to diverse student needs.

Conclusion:

Remedial classes offered by the Department of Commerce play a crucial role in supporting students' academic growth and promoting educational equity. Through targeted assistance, personalized instruction, and a focus on building confidence, these classes contribute to the overall success of students facing academic challenges. Continued evaluation and enhancement of the remedial class program will further ensure its effectiveness in meeting the needs of all students.
