**QUESTION BANK FORMAT 2023-2024 – UG**

**Programme : BCOM**

**Course Name : COMPUTER PROGRAMMING**

**Semester : III**

**Name of Question Bank designer: Ms.Jyoti Yadav**

**Note:**

- 1. Do not change the format or use self-created formats.**
- 2. The format of question bank for 1 Mark questions with options a, b, c, d (multiple choice) is attached separately.**
- 3. It is mandatory to give a minimum of 20 questions per unit in the format for 5 marks.**

**PRINCIPAL

ICA

Question Bank - (Internal Examination)

- Explain Binary and Decimal Number System with example.
- Explain Flowchart Notations with example.
- What is Algorithm? Explain types of Algorithms.
- What is software? Explain different types of softwares.
- Write a C program to perform addition of 2 numbers.
- Explain Octal and Hexadecimal Number System with example.
- Draw Flowchart of Addition of two numbers.
- Explain any 2 input and 2 output device.
- Differentiate between compiler and interpreter
- Write a C program to perform average of 2 numbers.

A handwritten signature in black ink, appearing to read "Mandur", written over a horizontal line.

Fill in the blanks:

1 byte = \_\_\_ bit

1

0

4

2

2. The technology used in 1st generation computer is \_\_\_\_\_

IC

Vacuum tubes

Radios

Transistors

3. binary value of 7 is \_\_\_\_\_

000111

111100

110000

001100

4. decimal value of 0101 is \_\_\_\_\_

6

2

3

5

5. \_\_\_\_\_ is written in symbolic form.

Flowchart

Algorithm

program

statements

6. \_\_\_\_\_ represents connector for joining parts of flowchart.

Rectangle

Circle

Parallelogram

Square

7. Ellipse represents \_\_\_\_\_

Flow control

start and end

Only end

decision

8. C programming was developed by \_\_\_\_\_

James gosling

Denies gosling

James Ritchie

Denies Ritchie

9. \_\_\_\_\_ is reserved words.

Answer the following true or false:

1. The speed of screen is measured in clock.

2. Liberty is a programming language.

2. Java is a programming language.
3. In every c programming printf() is mandatory.
4. 1024 kb=1Mb
5. In the hexadecimal number system there are 8 symbols.
6. \n moves the cursor to the next line.
7. Diamond symbol in flowchart is used for output.
8. C is an object oriented programming language.
9. OS acts as an interface between software & hardware.
10. Keywords must be written in uppercase.

Explain binary number system.

Explain characteristics of operating system.

Explain Compiler and Interpreter.

Explain types of computer. Explain Decimal number system.

Explain various input & output devices.

Explain the concept of Flowchart .  
Explain different parts of computer.

Write a program to calculate addition of two numbers in C programming  
Explain the qualities of writing good Algorithm.  
Draw flowchart to perform an average of 2 numbers.  
Write an algorithm to perform simple interest .  
Write a program to calculate multiplication of 2 numbers in C programming  
Explain the concept of algorithm with example.  
Explain Flowchart symbols.  
Write an algorithm to perform calculation of area of circle.

Explain if-else if statement.  
Explain decision making statements with example in C programming.  
Explain data types in C programming.  
Explain the while loop statement with example.  
Explain printf() & scanf() function with examples .  
Explain if statement with an example.  
Explain int and float, Char data type with example in C programming.  
Explain if -else statement with example.

Write short notes on:

Decimal number system.

1's & 2's complement.

While loop

Flowchart

Hexadecimal number system operations.

If statement in C .

Functions of operating system.

Conversion of binary to decimal system.

Types of Algorithm.

SEM:III  
Date:

Class:SYBCOM SUBJECT: COMPUTER  
PROGRAMMING

Time:  
Marks: 75

Note: All Questions are compulsory. Figures to the right indicate full marks.

Q1. (A) Fill in the blanks: (any 8)

(08)

CO1 &  
CO2

1. 1 byte=\_\_\_\_bit
  - a) 1
  - b) 0
  - c) 4
  - d) 2
2. The technology used in 1st generation computer is \_\_\_\_\_
  - a) IC
  - b) Vacuum tubes
  - c) Radios
  - d) Transistors
3. binary value of 7 is \_\_\_\_\_
  - a) 000111
  - b) 111100
  - c) 110000
  - d) 001100
4. decimal value of 0101 is \_\_\_\_\_
  - a) 6
  - b) 2
  - c) 3
  - d) 5
5. \_\_\_\_\_ is written in symbolic form.
  - a) Flowchart
  - b) Algorithm
  - c) program
  - d) statements
6. \_\_\_\_\_ represents connector for joining parts of flowchart.
  - a) Rectangle
  - b) Circle
  - c) Parallelogram
  - d) Square
7. Ellipse represents \_\_\_\_\_
  - a) Flow control
  - b) start and end
  - c) Only end

**PRINCIPAL**

**(Night College) Jainagar, Navi Mumbai.**

d) decision

8. C programming was developed by \_\_\_\_\_

- a) James gosling
- b) Denies gosling
- c) James Ritchie
- d) Denies Ritchie

9. \_\_\_\_\_ is reserved words.

- a) Int
- b) header
- c) header files
- d) files

10. \_\_\_\_\_ begins with backslash(\)

- a) characters
- b) escape characters
- c) strings
- d) numbers

Q1. (B) Answer the following true or false: (any 7)

CO1 & CO2 (07)

1. The speed of second generation computers were measured in milliseconds.
2. Java is a programming language.
3. In every c programming printf() is mandatory.
4. 1024 kb=1Mb
5. In the hexadecimal number system there are 8 symbols.
6. \n moves the cursor to the next line.
7. Diamond symbol in flowchart is used for output.
8. C is an object oriented programming language.
9. OS acts as an interface between software & hardware.
10. Keywords must be written in uppercase.

Q2. (a) Explain binary number system.

CO1

(08)

(b) Explain characteristics of operating system.

(07)

OR

(c) Explain Compiler and Interpreter.

CO1

(08)

(d) Explain types of computer.

(07)

Q3. (a) Write a program to calculate addition of two numbers in C programming

(08)

(b) Explain the qualities of writing good Algorithm.

CO2

(07)

OR

(c) Draw flowchart to perform an average of 2 numbers.

(08)

(d) Write an algorithm to perform simple interest .

(07)

Q4. (a) Explain printf() & scanf() function with examples .

CO2

(08)

(b) Explain if statement with an example.

CO1 & CO2

(07)

OR

(c) Explain int and float, Char data type with example in C programming.

(08)

(d) Explain if-else statement with example.

(07)

Q5. Write short notes on: (any 3)

(15)

i. Decimal number system.

CO1 & CO2

ii. 1's & 2's complement.
